The act establishing the Philippine government provided that "public lands" of agricultural character should be sold or leased to "citizens of said islands" in tracts of not more than forty acres to individuals and 2,500 acres to corporations. The act also defines specifically who are such "citizens," declaring them to be those persons who were inhabitants of the islands April 11, 1809, and their descendants.

Mr. Ralston's contention is that the ommission has violated the law in selling and leasing lands to Americans and others not "citizens;" that it violated the law in this respect when it sold lands to its own members, and that it violated the law in another respect by selling and leasing land in tracts greater than provided by act of Congress, A portion of the brief describing one deal with the sugar interests follows:

"Certain peculiarly and well informed sugar interests in this country determined."

"Certain peculiarly and well informed sugar interests in this country determined, far in advance of Congressional action, as to the admission of sugar from the islands, and, evidently in a position to read the future with marvelous accuracy to invest largely in Philippine lands, and these interests thought it advisable to purchase public lands.

Mr. Raiston contends that the Philippine government has violated the law in selling or leasing these lands to persons other than citizens, in tracts
